The Need for Sleep.

It is a mistake to try and do altogether without sleep during an ardnons feat of endurance lasting several days. Such is the verdict of Mr. Mills upon his late an's club. These intelligent and enterbicycle ride from Laml's End to Join that made him lose the seven hours must wake up or the women will presspent in sleeping. It was simply a feel- ently know more than they about the ing of drowsiness so strong that not all the prayers and entreaties, nor even the repeated shakings of his friends who had come to see him perform the last part of his jonrney, could rouse the chainpion to make one short, final spurt. Exper day is essential. He is still confident, about this society, I should say this last of being able to do the journey, under favorable conditions, in three and a half days.-London News.

The Cultivation of Prones.

The cultivation of prunes in California is said to be profitable, about one didlir per tree, or \$100 per acre. This rate increases as the tree grows old, until the fruit each year is worth almost two dollars. Ex-Secretary of State Thomas Leck has given up everything else to engage in the cultivation of the prime. The Pajaro Land (Now closing up) with the same assets and under the same management.
